# 1 Kick-off

**SCOTOGNO SOCCER** is a football game (a bit of a mess) seen from above, one against one. You play alone against the computer (CPU) or two players on the same C64.

- **Eight national teams**, each with its own strengths.
- **Nine difficulty levels** against the CPU.
- The **SCOTOGNO CUP**: quarter-finals, semi-finals and final.
- Optional **power-ups** and **achievements** saved with a password.

**WHAT YOU NEED**

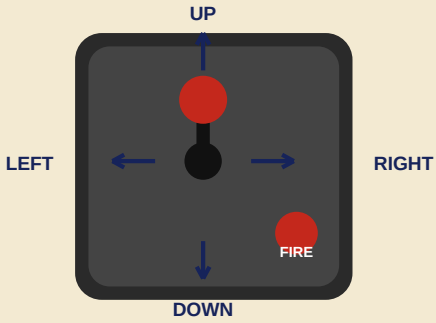

A Commodore 64 and one or two joysticks. The game comes on **disk** (1541) or on an **EasyFlash cartridge**.

## LOADING

- **Disk**: `LOAD"*",8` then `RUN`. While it loads you will see the title picture; then the game starts by itself.
- **Cartridge**: insert it **with the computer off**, then switch on. At the start screen press **FIRE** or the **space bar**.

At start-up choose the language with left/right and confirm with FIRE.

# 2 Controls and menus

PL1: joystick in PORT 2.

PL2: joystick in PORT 1.

FIRE: shoot, slide, confirm in menus.

RUN/STOP: quit the match.

| | IN MENUS | IN THE MATCH |
|---|---|---|
| **Up / Down** | Change item | Run up / down |
| **Left / Right** | Change value | Run left / right |
| **FIRE** | Confirm | Shoot (ball close) or slide |
| **RUN/STOP** | - | Quit and go back to the title |

## MAIN MENU

- **MATCH**: mode (PL1 VS CPU or PL1 VS PL2), the two teams and the difficulty, then PLAY.
- **SCOTOGNO CUP**: your team and the starting difficulty.
- **OPTIONS**: the settings (see later).
- **ACHIEVEMENTS**: feats and password.

Before every match PL1 calls **HEADS** or **TAILS**: whoever calls it right takes the kick-off.

### TWO PLAYERS

PL1 uses the joystick in **port 2**, PL2 the one in **port 1**. If they are swapped, you are the opponent.

### COACH'S TIP

If you score against a friend, do not celebrate with your shirt over your eyes: whoever conceded takes the kick-off at once and you can't see a thing.

# 3 On the pitch

PL1 attacks upwards, the opponent downwards. Score and minutes are on the panels behind the goals and beside the halfway line; the **arrows** at the edges show who is off screen.

## DRIBBLING, SHOOTING, SLIDING

- **Dribbling**: run onto the ball and push it ahead. With the ball at your feet you are a bit slower.
- **Shooting**: FIRE with the ball close to your feet. It goes the way you are facing (8 directions).
- **Sliding**: FIRE with the ball far away. You can no longer steer; if you touch the ball you hoof it away (in the joystick direction) and possession is freed. Then you stay down for a moment.

## RULES

- 90 simulated minutes, about three real ones. After a goal, whoever conceded kicks off.
- **WHITEWASH!** At 6-0 or 7-1 the match ends at once; reaching 9 goals ends it too.
- A draw stands, except in the cup: there you play on until the **golden goal** (GG appears on the clock).

### COACH'S TIP

Your body deflects shots: stand between the ball and the goal. And don't slide and miss when you are the last defender.

### COACH'S ADVICE

Five goals up? Don't be afraid to hand out a **WHITEWASH**: better unpopular because you win than popular because you lose.

### CAN I QUIT?

Yes, with RUN/STOP. In the cup the tournament is lost.

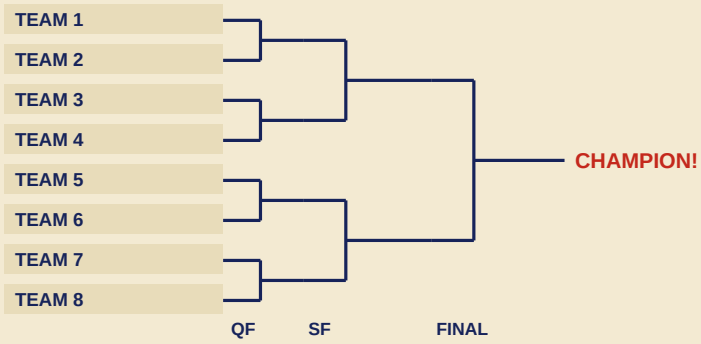

# 4 Teams and cup

Each team has four qualities rated in stars: **SPD** (speed), **SHT** (shot power), **CTL** (ball control), **DEF** (reach and recovery of the slide). All teams have the same total of stars.

| TEAM | SPD | SHT | CTL | DEF | STYLE |
|---|---|---|---|---|---|
| ITALY | ★★★☆☆ | ★★☆☆☆ | ★★★☆☆ | ★★★★☆ | Solid defence, weak shot. |
| ARGENTINA | ★★★☆☆ | ★★★☆☆ | ★★★★☆ | ★★☆☆☆ | Skilful, but defends badly. |
| GERMANY | ★★★☆☆ | ★★★★☆ | ★★☆☆☆ | ★★★☆☆ | Powerful shot, poor control. |
| SPAIN | ★★☆☆☆ | ★★★☆☆ | ★★★★☆ | ★★★☆☆ | Great passing, but slow. |
| JAPAN | ★★★★☆ | ★★☆☆☆ | ★★★☆☆ | ★★★☆☆ | Fast, weak shot. |
| ENGLAND | ★★☆☆☆ | ★★★★☆ | ★★★☆☆ | ★★★☆☆ | Powerful shot, but slow. |
| BRAZIL | ★★★★☆ | ★★★☆☆ | ★★★★☆ | ★☆☆☆☆ | Fast and skilful, no defence. |
| FRANCE | ★★★★☆ | ★★★☆☆ | ★★☆☆☆ | ★★★☆☆ | Fast, poor control. |

## SCOTOGNO CUP

Eight teams are drawn, knockout matches. The computer plays the other games. Difficulty starts at the one you chose and **goes up by two each round**, up to 13. If you lose you are out; RUN/STOP quits the tournament.

# 5 Options and power-ups

| ITEM | VALUES | WHAT IT DOES |
|---|---|---|
| **PLAYERS** | CLASSIC / DYNAMIC | Two drawing styles for the players. |
| **SLIDE** | NORMAL / EXPERT / EXTREME | How long you stay down after a slide (about 0.6 / 0.8 / 1.1 s). |
| **SKILLS** | DIFFERENT / EQUAL | With EQUAL all teams have three stars everywhere. |
| **POWER-UPS** | YES / NO | Bonuses on the pitch; the cup becomes SCOTOGNO CUP+. |
| **LANGUAGE** | ITALIANO / ENGLISH | Language of the menus. |

With power-ups, coloured tokens appear on the pitch: just run over them. The effect lasts 8 seconds and the player flashes; the CPU chases them too.

| | POWER-UP | EFFECT |
|---|---|---|
|  | **TURBO** | Run much faster. |
|  | **CANNON** | Your shot becomes a thunderbolt. |
|  | **GLUE** | The ball sticks to your foot. |
|  | **WALL** | Longer slide, and you get up sooner. |
|  | **FREEZE** | Slows down your opponent for 5 seconds. |

**COACH'S TIP**

Freeze is for giving away: wait until you are attacking and freeze him while he defends.

# 6 Achievements and tips

By beating the CPU you earn **achievements**: cups won from different starting difficulties (also with power-ups), ten wins against Germany, the world tour at level 9... and a secret one. Collect enough and the **UNLOCKABLES** screen reveals a few surprises.

Progress is not saved by itself: write down the **password** (XXXX-XXXX) shown on the ACHIEVEMENTS screen and restore it with ENTER PASSWORD.

## TIPS

- Start at level 1 (FLAFFOF) and climb slowly.
- From the wing you only score on the diagonal: the CPU knows it and covers you.
- With many CTL stars you keep the ball better; for counter-attacks you need SPD.

## WHEN THINGS GO WRONG

- It ignores the controls: check the joystick port (PL1 port 2, PL2 port 1).
- The cartridge does not start: switch off, push it in firmly and switch on again.

### THE COACH'S SECRET

In the dressing room the coach keeps humming the name of the old game he lost his head over: eight letters, just like a password. It goes something like RECRU... and then trails off into a whistle.

### THE ACHIEVEMENTS NEVER END

The SCOTOGNO CUP at difficulty 9 is the true test of a champion. When you have won it... who knows.
